Department	DEPARTMENT OF BRAIN AND BEHAVIORAL SCIENCES
Course	PSYCHOLOGICAL SCIENCES
Curriculum	PERCORSO COMUNE
Year of study	2°
Period	(20/09/2023 - 12/01/2024)
ECTS	2
Lesson hours	12 lesson hours
Language	Italian
Activity type	ORAL TEST
Teacher	MAFFONI MARINA - 2 ECTS
Prerequisites	It would be advisable to have previously attended at least a course regarding Work and Organizational Psychology
Learning outcomes	The course aims to provide practical framework for psychology of organizational wellbeing. Specifically, students will have the opportunity to learn how to promote organizational wellbeing and how to utilize specific evaluation measurements for risk and protective factors through practical exercises.
Course contents	Psychology of organizational wellbeing: understanding and importance of its evaluation. ? Main evaluation tools: questionnaires, interviews, and focus groups in organizations. ? Planning, execution and assessment of corrective and preventive

	interventions for the promotion of wellbeing in organizations.
Teaching methods	The different topics of this course will be addressed interactively using multimedia material or case studies. The application of evaluation tools and the planning of interventions through guided practical exercises will be covered. Attendance of at least 80% of the lessons is required.
Reccomended or required readings	Various materials, including slides and handouts, will be provided during the lessons.
Assessment methods	The exam includes an individual written test with close-ended answers. For more details related to enrollment year, see the dedicated webpage: http://psicologia.unipv.it/didattica/cpg.html
Further information	As part of the University's Innovative Teaching activities and to promote inclusion, there are up to two hours of reception per week, to be agreed in advance.
