| <b>Docente</b>               | REALI ALESSANDRO (titolare) - 6 CFU  |
| <b>Prerequisiti</b>          | A good knowledge of the basic concepts given within the courses of Mechanics of Solids and Structures, Numerical Analysis, and Computational Mechanics is required.  |
| <b>Obiettivi formativi</b>   | This course aims at giving a concise introduction to the basic concepts of nonlinear mechanics of solids and at providing the basic ingredients to perform simulations of solid mechanics problems at large strains via the finite element method. |
